
Creating a New Template

Transition to the Project Template Creation Form

To create a new template, go to the "Project Builder" section in the main menu of the application. On the opened page, click the "+" button in the upper right corner and select "Project Template" from the dropdown menu.

The project template builder will open:

The process of creating a project template is similar to the process of [Creating a New Project](#), with the difference that at the beginning, the type "Project Template" is selected instead of "Project".

The algorithm for creating a project from a template is described in the section ["Creating a Project from a Template"](#).
